

The Second City®

The Second City *Improv All Stars* Technical and Hospitality Rider

Lighting

Lighting must illuminate the entire performance area and separate the audience area from the stage area.

Stage

Presenter to provide a stage area no less than 8' x 12' in depth and width, preferably 2' in height.

Sound

A good quality sound system is not required for audiences under 100 persons, provided the venue acoustics are adequate. **If the audience exceeds 100 persons and/or the venue is acoustically prohibitive (ie. gymnasiums, ballrooms, etc.) the following is required:**

- We request floor microphones that do not impede the audience view. For stage amplification, microphones on stands are not acceptable. We recommend hypercardoid floor mounted microphones (pcc) or pressure zone microphones (pzm's). If the location of the performance is a hotel, or a ballroom type space, we recommend using six (6) wireless lavalieres, body microphones to avoid inadequate sound coverage. If available, hanging microphones work well.
- A piano, downstage left, tuned to A-440 pitch and miked. If the piano is raised for transport, an adjustable bench should be provided. Piano may be moved slightly during rehearsal.

Refreshments

Presenter shall provide clean drinking water, ice, coffee, juice, soft drinks, and cups. Service for 8 people should be provided.

Dressing Room

Presenter shall provide a clean, lockable dressing room with restroom facilities.

Chairs

4 matching light weight chairs without arms in good condition, preferably bentwood or some other type of light weight construction. Folding chairs are not acceptable.

Accommodations

Presenter shall provide 8 single hotel rooms in a first-class hotel.

Billing

This show must be billed under it's full title of "The Second City's Improv All Stars" to avoid confusion with our other show offerings.

Meals

Presenter shall provide a hot meal for 8. Pizza or fast food is not acceptable.
